## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1, 2 and 4 – 30 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to teach a system and method of uploading media objects including audio-only files and audio/video files to a website hosted server, accessing the website to schedule and organize the media objects including audio-only files and audio/video files into a media program and establishing a synthetic channel as a channel among a plurality of broadcast channels of an interactive video casting system.

The prior art reference to Ellis et al (US 6,774,926) teaches a web-based system which provides a user with audio-video content over a synthetic channel. The prior art reference to Cremia (US 6,477,704) teaches a web-based system in which a user can assemble a playlist. The combination of Ellis and Cremia fails to teach uploading audio only files and audio/video files to a website hosted server and fails to teach transmitting audio files and audio/video files over a synthetic channel. It is noted that Cremia teaches against Ellis as Ellis is directed to providing customized media for an individual user and Cremia teaches advantages of providing customized media to a group in lieu of an individual.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vivek Srivastava whose telephone number is (571) 272-7304. The examiner can normally be reached on Monday – Friday from 9 am to 6 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chris Kelley can be reached on (571) 272 – 7331. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
